ABOUT US

Rajadhani Finishing School is an initiative by Rajadhani Constructors. The main aim on starting an institution exclusively for Civil Engineering is to make the students to bridge the gap between the academics and the real world. The institution trains the students in live and real world projects, which increases their confidence. This course is rare in its nature since number of such institutions is less. The classes are carried out by well experienced faculties in the field. Rajadhani Constructors is a well established institute with over 25 years of experience. The company has completed 8000+ projects across Kerala including Residential, Commercial, Industrial, Recreational, Institutional etc. The company is well experienced in Traditional Vasthu and got experts in the field. By studying this course the candidates are given jobs on the basis of their requirement.

Rajadhani Constructors has got sister concerns such as:

1. Indian Institute of Traditional Sciences (IITS), which is a sub-centre of PRIST University, Thanjavur, for Vasthu, Jyothisham (Degree and PG courses).
2. Suvisri Solutions Pvt Ltd is a software company which developed VASTU VISION, software for Vasthu calculations.
